To Whom It May Concern:

Re: Glen A. Morrison

I have practiced family and criminal law for thirty-three years and have had the pleasure of working with Glen Morrison on more than one occasion. Glen is a dedicated professional, who has a particular knack for exploring the details of a case and flushing out necessary information that might not otherwise be revealed. In a short amount of time, Glen's investigative skills can work wonders dealing with complex information and convoluted fact patterns.

Glen's expertise and reports are impressive, and I appreciated his accessibility, meticulous attention to every aspect of the situation, and reasonable rates. I highly recommend Mr. Morrison to anyone needing investigative services. I am happy to answer any questions about his remarkable talents and abilities.

Sincerely,

Karen D. Stevan
